Servers and storage standards for schools and colleges

Find out what standards your school or college should meet on servers and storage, including security, energy efficiency and suitable environments.

All servers and related storage platforms should continue to work if any single component or service fails

Servers and related storage platforms must be secure and follow data protection legislation

All servers and related storage platforms should be energy-efficient and set up to reduce power consumption, while still meeting user needs

All server and related storage platforms should be kept and used in an appropriate physical environment
